DATA

What is EDF

EDF is EU's annual meeting-point for data practitioners from industry, research, the public sector and community initiatives, to discuss the **opportunities and challenges** of Europe's emerging **Data Economy**

Goals

Bring together all **stakeholders** of the **data value chain**, influence the development of EU's data economy, and foster an EU data ecosystem

Programme

Keynotes from global experts, submitted talks, exhibits, networking sessions, and the **Data Innovator Award**
